I can cash bond them as soon as you are ready.

I am actually waiting on my management chain to okay some permit language. I've scheduled a meeting with them for next week to try to move things along.

Do you have a time frame for the Financial Assurance for the Class III wells?

Janette

Hello Janette,

Just checking in once again, following my last inquiry 6 weeks ago.

I hope all is progressing well. I am starting to feel a bit of heat provided the time frame, so anything you can do that may help me facilitate the process to its highest efficiency would be a great relief to me. I want to make sure things are done correctly, and that our application summary was greater than satisfactory and presented in a very logical and straight forward way, and to re-iterate that I am here and available 24/7.

Thank-you.

Please call with questions.

Ted

Hello Janette,

Its been just over 30 days, so I am sending a short note to make sure our permit and its language is well understood and if there is anything I can do to facilitate a more expeditious understanding of the proposed operation, I'm here to do so. Allan has suggested that we might expect a publication shortly?

Call me anytime. [970 590 3944](tel:9705903944).

Sincerely,

Ted Pagano

I did receive it.

Sorry for not replying earlier, my sinuses were in a state of revolt and I wasn't thinking clearly.

Hello Janette,

I didn't receive a confirmation email from you on this, and I had some trouble with this with Allan; not sure why or how. So if you could please confirm.

Thanks.

Dear Ms. Hansen:

As per our conversation, please find attached, a clarification of the proper noun of the proposed Class III interval to reflect the Salina A-1 *Evaporite*.

Also find attached, a statement clarifying the Salina A-2 Carbonate as a confining interval.

Please confirm receipt of this email. Thank-you.

Sincerely,

Ted Pagano
